

# NATURAL ACTION WATER - PORTABLE UNIT

## Important Information and Ideas for Usage

*The Natural Action Water Portable is the answer when you want to enjoy the benefits of an energy infusion when you're out and about, whether around town, at a local restaurant, or on the road.*

### IMPORTANT:

1. This device is not designed for extended hot water use above 140 degrees.
2. This device is not designed to sustain freezing temperatures with residue water inside; unit may crack and/or function will possibly be deteriorated.
3. ***Do not drop - function may be deteriorated.***
4. The unit you received may rattle, this is normal; it contains a geometrically tuned chamber with specific geometric forms that align with the direction of flow.
5. The unit is bi-directional but pouring into the funnel end is easiest.
6. Will become brittle and may deteriorate desired function if left exposed to the sun for an extended period of time.

### IDEAS FOR USING THIS UNIT:

7. When traveling, use for structuring your drinking water .
8. Structuring juices of any kind (apple, grape, grapefruit, etc) brings more flavor to the juice.
9. Small enough that it can be taken to a restaurant to structure your water and any other beverages you order.
10. Structuring a lesser quality wine makes it much smoother tasting as if it has aged.
11. Structuring alcohol that has an edge to it will smooth it out.
12. Conversation starter – Offer to structure someone else's beverage.
13. Use your imagination and tell us *your experience* of using this device! You may e-mail it to the address below.
